DOCUMENT PURPOSE

This User Guide describes the basic concept and tasks necessary to use and configure your GXV3275. This document covers the topics of phone installation, making basic calls, using phone's built-in applications and basic features. To learn the advanced features and configurations, please visit link http://www.grandstream.com/support to download the latest "GXV3275 Administration Guide".

GNU GPL INFORMATION

GXV3275 firmware contains third-party software licensed under the GNU General Public License (GPL). Grandstream uses software under the specific terms of the GPL. Please see the GNU General Public License (GPL) for the exact terms and conditions of the license.

Grandstream GNU GPL related source code can be downloaded from Grandstream web site from: <u>http://www.grandstream.com/support/faq/gnu_gpl</u>.

CHANGE LOG

This section documents significant changes from previous versions of GXV3275 user manuals. Only major new features or major document updates are listed here. Minor updates for corrections or editing are not documented here.

FIRMWARE VERSION 1.0.1.54

- Add BroadWorks Xsi Contacts [BOADRWORKS XSI CONTACTS]
- Add BroadWorks Xsi Call History [BROADWORKS XSI CALL HISTORY]
- Add Preview for video calls [SINGLE INCOMING CALL]

FIRMWARE VERSION 1.0.1.39

• Update screenshots

FIRMWARE VERSION 1.0.1.29

• This is the initial version.

WELCOME

Thank you for purchasing Grandstream GXV3275 IP Multimedia Phone for Android[™]. The powerful GXV3275 combines a comprehensive 6-line IP video phone, a multi-platform video conferencing solution and the user experience of an Android tablet to offer an all-in-one voice, video, data, and mobility solution. The GXV3275 is a 6-line IP multimedia phone with a 7" capacitive touchscreen that runs on Android[™] OS version 4.2, offering access to the hundreds of thousands of Android apps in the Google Play Store - including business productivity apps such as Skype[™], Microsoft Lync[™], Salesforce1[™], and GoToMeeting[™]. The phone features dual Gigabit ports, HD audio and HD video, a built-in web browser, integrated Wi-Fi (802.11b/g/n) for network flexibility, PoE, and a tiltable CMOS camera. The GXV3275's integrated Bluetooth allows users to sync calendars and contacts between their mobile phone and the GXV3275, use hands-free Bluetooth headsets and to transfer calls between the GXV3275 and their mobile phone. By combining a state-of-the-art IP phone, an advanced video conferencing solution, and the functionality of a tablet, businesses throughout the world can now use the GXV3275 for all communication and productivity needs.

Caution:

Changes or modifications to this product not expressly approved by Grandstream, or operation of this product in any way other than as detailed by this User Manual, could void your manufacturer warranty.

Marning:

Please do not use a different power adaptor with the GXV3275 as it may cause damage to the products and void the manufacturer warranty.

This document is subject to change without notice. The latest electronic version of this user manual is available for download here:

http://www.grandstream.com/support

Reproduction or transmittal of the entire or any part, in any form or by any means, electronic or print, for any purpose without the express written permission of Grandstream Networks, Inc. is not permitted.

Firmware Version 1.0.1.54

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information (SAR)

This device is designed and manufactured not to be exceeded the emission limits for exposure to radio frequency RF energy set by the Federal Communications Commission of the United States. The exposure standard for wireless devices employing a unit of measurement is known as the Specific Absorption Rate (SAR), and the SAR limit set by FCC is 1.6 W/kg.

This device is complied with SAR for general population/uncontrolled exposure limits in ANSI/IEEE C95.1-1992, and has been tested in accordance with the measurement methods and procedures specified in OET Bulletin 65 Supplement C. This device has been tested, and meets the FCC RF exposure guidelines when tested with the device directly contacted to the body. RF exposure compliance with anybody-worn accessory, which contains metal, was not tested and certified, and use such body-worn accessory should be avoided.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Hereby, Grandstream declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

PRODUCT OVERVIEW

FEATURE HIGHTLIGHTS

- 6 lines with up to 6 SIP accounts including FREE IPVideoTalk account with video mail, up to 6-way audio conference and 3-way video conference, phonebook with up to 1000 contacts, call history with up to 1000 records
- Dual switched auto-sensing 10/100/1000Mbps network ports, Wi-Fi (802.11b/g/n), PoE+, Bluetooth, USB, SD, HDMI, EHS with Plantronics headsets support
- 7" (1024x600) capacitive (5 points) touch screen TFT LCD, mega pixel CMOS sensor camera with privacy shutter
- HD wideband audio, full-duplex hands-free speakerphone with advanced acoustic echo cancellation
- Runs the Android[™] Operating System 4.2 and offers full access to the Google Play Store which includes thousands of business productivity apps such as Skype, Microsoft Lync, SalesForce1, GoToMeeting
- Integrate with Grandstream's GXV series of IP video surveillance cameras to view live camera feeds and to receive alerts/alarms from IP cameras installed on the same network
- Offers a multi-platform video conferencing solution (Grandstream's Free IPVideoTalk, Skype, Microsoft Lync, and more)
- Create Android applications for any business need to run on GXV3275 using Google's API and Grandstream's SDK toolkit

GXV3275 TECHNICAL SPECIFICATIONS

Table 1: GXV32	75 Technical	Specifications
----------------	--------------	-----------------------

Protocols/Standards	SIP RFC3261, TCP/IP/UDP, RTP/RTCP, HTTP/HTTPS, ARP, ICMP, DNS (A record, SRV, NAPTR), DHCP, PPPoE, SSH, TFTP, NTP, STUN, SIMPLE, LLDP-MED, LDAP, TR-069, 802.1x, TLS, SRTP
Network Interfaces	Dual switched 10/100/1000 Mbps ports with integrated PoE
Graphic Display	7"(1024×600) capacitive (5 points) touch screen TFT LCD
Camera	Tiltable mega pixel CMOS camera privacy shutter
Bluetooth	Yes, integrated. Bluetooth 4.0 + EDR
Wi-Fi	Yes, integrated. 802.11b/g/n

Auxiliary Ports	RJ9 headset jack (allowing EHS with Plantronics headsets), 3.5mm stereo headset with microphone, dual USB ports, SD, mini HDMI		
Feature Keys	2 function keys VOLUME +/-, 3 dedicated Android keys for HOME, MENU, and BACK		
Voice Codec	Support for G.711 μ /a, G.722 (wide-band), G.726-32, G.729 (pending), iLBC, Opus (pending), in-band and out-of-band DTMF (In audio, RFC2833, SIP INFO)		
Video Codec and Capabilities	H.264 BP/MP/HP, video resolution up to 720p HD, frame rate up to 30 fps, bit rate up to 2Mbps, 3-way video conference, anti-flickering, auto focus and auto exposure, PIP (Picture-in-Picture), on-screen-display, camera block, still picture capture/store, video recording, visual voice message indicator		
Telephony Features	Hold, transfer, forward (unconditional/no-answer/busy), call park/pickup, 6-way audio conference, shared-call-appearance (SCA) / bridged-line-appearance (BLA), virtual MPK, downloadable phone book (XML, LDAP), call waiting, call history, boss-secretary virtual button, flexible dial plan, hot desking, personalized music ringtones, server redundancy & fail-over		
Sample Applications	Skype, Google Hangouts, Microsoft Lync, Web browser, GoToMeeting, Facebook, Twitter, Youtube, news, weather, stock, Internet Radio, Pandora, Last.fm, Yahoo Flickr, Photobucket, alarm clock, Google calendar, mobile phone data import/export via Bluetooth, etc. API/SDK available for advanced custom application development		
Applications Deployment	Allow various Android operating system 4.2 compliant applications to be developed, downloaded and run in the embedded device with provisioning control		
HD Audio	Yes, both handset and speakerphone support HD (wide-band) audio		
Base Stand	Yes, integrated stand with multiple adjustable angles. Wall mountable		
QoS	Layer 2 QoS (802.1Q, 802.1p) and Layer 3 (ToS, DiffServ, MPLS) QoS		
Security	User and administrator level access control, MD5 and MD5-sess based authentication, 256-bit AES encrypted configuration file, TLS, SRTP, HTTPS, 802.1x media access control		
Multi-language	English, German, Italian, French, Spanish, Portuguese, Russian, Croatian, Chinese, Korean, Japanese, and more		
Upgrade/ Provisioning	Firmware upgrade via TFTP / HTTP / HTTPS or local HTTP upload, mass provisioning using TR-069 or AES encrypted XML configuration file		
Power and Green Energy Efficiency	Universal power adapter included: Input: 100-240VAC 50-60Hz; Output: 12VDC, 1.5A (18W); Integrated PoE+ (Power-over-Ethernet) 802.3at, Class 4		

Physical	Dimension: 252mm (W) x 211mm (L) x 84mm (H) Unit weight: 1.08kg Package weight: 1.77kg
Temperature and Humidity	Operating: 0°C to 40°C Storage: -10°C to 60°C Humidity: 10% to 90% Non-condensing
Package Content	GXV3275 phone, handset with cord, base stand, universal power supply, network cable, lens cleaning cloth, quick installation guide, brochure, GPL license
Compliance	FCC: Part 15 (CFR 47) Class B; UL 60950 (power adapter) CE: EN55022 Class B, EN55024, EN61000-3-2, EN61000-3-3, EN60950-1, EN62479, RoHS RCM: AS/ACIF S004; AS/NZS CISPR 22/24; AS/NZS 60950; AS/NZS 4268

HANDS

Item	Name	Description
1	Camera Adjusting Wheel	Scroll up/down to adjust the camera angle.
2	Phone Stand (built-in)	Adjust the phone stand angle to place the phone on the desk.
3	Power Jack	12V DC Power connector port.
4	PC Port	10/100/1000Mbps RJ-45 port connecting to PC.
5	LAN Port	10/100/1000Mbps RJ-45 port connecting to Ethernet. PoE is supported.
6	Headset Port	RJ9 headset connector port (supporting EHS with Plantronics headset).
7	Handset Port	RJ9 handset connector port.
8	Side Connectors Cover	Open the cover for USB port, SD card slot, 3.5mm headset port and mini HDMI port.

SIDE VIEW

Figure 3: GXV3275 Side View

Table 5: GXV3275 Side View

Item	Name	Description
1	Mini HDMI Port	Connect display device to the HDMI port via HDMI cable.
2	3.5mm Headset Port	Connect 3.5mm headset.
3	SD Card Port	Connect SD storage device to the SD Card Slot.
4	USB Port	USB devices can be connected via the USB port. For example, connect a USB flash drive to save captured pictures.

To set up the GXV3275 as your desk phone, follow the steps below:

- 1. Take the phone stand out on the back and adjust the angle to place the phone steady on the desk;
- 2. Connect the handset and main phone case with the phone cord;
- 3. Connect the LAN port of the phone to the RJ-45 socket of a hub/switch or a router (LAN side of the router) using the Ethernet cable;
- 4. Connect the 12V DC output plug to the power jack on the phone; plug the power adapter into an electrical outlet. If PoE switch is used in step 3, this step could be skipped;
- 5. The LCD will display the booting up screen or firmware upgrading information. Before continuing, please wait for the main screen display to show up.

SAFETY COMPLIANCES

The GXV3275 phone complies with FCC/CE and various safety standards. The GXV3275 power adapter is compliant with the UL standard. Use the universal power adapter provided with the GXV3275 package only. The manufacturer's warranty does not cover damages to the phone caused by unsupported power adapters.

WARRANTY

If the GXV3275 phone was purchased from a reseller, please contact the company where the phone was purchased for replacement, repair or refund. If the phone was purchased directly from Grandstream, please contact Grandstream Support for a RMA (Return Materials Authorization) number before the product is returned. Grandstream reserves the right to remedy warranty policy without prior notification.

Use the power adapter provided with the phone. Do not use a different power adapter as this may damage the phone. This type of damage is not covered under warranty.

Figure 5: GXV3275 Onscreen Menu

To fully manipulate the GXV3275 capacitive touch screen, use your fingers to operate the following on the GXV3275 icons, buttons, menu items, onscreen keyboard and etc.

Figure 6: GXV3275 Finger Gestures on the Touch Screen

• Tap

Slightly touch the screen with fingertip to initiate menu, options or applications. For example, to select items on the screen (e.g., setting options, apps and etc.); to press onscreen buttons (e.g., "End" or "Options" softkey during the call); to type letters and symbols using the onscreen keyboard.

Long Press

Touch the screen with fingertip and press for about 2 seconds without lifting your finger from the screen till an action occurs. For example, long press on a picture to bring up selection option.

• Flick and Slide

Touch the screen with fingertip and slide over the screen. For example, user could slide up to scroll up the page, slide down to open dropdown menu, slide left or slide right to delete an item from the list. If your finger stays on the screen for too long, the item may be selected and sliding won't occur.

• Press and Drag

Touch and press the item, then move it by dragging it up, down, left or right, without lifting your finger from the screen.

• Zoom In/Zoom Out

Place two fingers on the screen, then pinch them together (zoom out) or spread them apart (zoom in).

• Double Tap

Quickly touch the screen twice with fingertip to switch between default display and zoomed-in display. This is usually used when viewing photos or web pages.

USE THE DESKTOP

DESKTOP MENU

When the GXV3275 is on idle screen, press the MENU button \equiv to bring up phone's menu. Users can access the following in the desktop menu:

	🗘 4:47 PM
IP:192.168.40.132	
5007 5007	
Wallpaper	
Preview	
Edit Widgets	
Folder Polder	K
Thread Manager	N
System settings	

Figure 7: GXV3275 Desktop Menu

• Wallpaper

Select wallpaper from Gallery, Wallpapers or Live Wallpapers.

• Preview

Add, delete or edit desktop.

• Edit Widget

Add widgets to the desktop by dragging the widget from the bottom menu to the desktop.

• Folder

Add folder on the desktop and users can place desktop shortcuts into the folder.

• Thread Manager

Manage running applications on the GXV3275. For more details, please refer to section [*MANAGE RUNNING APPLICATIONS*].

• System settings

Access phone's settings such as "Personalized Account", "Wireless & Network", "Sound", "Display", "Storage", "Application" and etc.

ADD APPLICATION SHORTCUT TO DESKTOP

The shortcut of the applications installed on the GXV3275 can be added to the desktop for users' easy access. To add shortcut:

- 1. Tap on the on screen Menu icon to access the applications first.
- 2. Select and press the application icon for about 2 seconds. The screen will show "Move to Desktop" on the bottom.
- 3. Drag the icon to the bottom of the screen. Phone's idle screen will immediately show up for you to place the shortcut.

Figure 8: Add Application Shortcut to the Desktop

ADD WIDGET TO DESKTOP

The GXV3275 provides widgets like account bar (with different number of accounts supported), clock, calendar, contacts, Email, MPK, system setting shortcut, weather and etc. Users could conveniently add those widget to the desktop as preferred. To add a widget:

- 1. Press the Menu button and select "Edit Widgets".
- 2. Different widgets will be displayed on the bottom of the screen.
- 3. Select and drag the widget to the desired spot to be placed on the desktop. Please make sure there is enough space on the desktop. Otherwise, the widget won't be added.

Figure 9: Add Widget to the Desktop

MANAGE DESKTOP ITEMS

On the GXV3275 desktop, users could tap on the desktop items to manage shortcuts and widgets. The following operations can be done:

• Tap on the shortcut icon to open the application.

For example, tap on "FileManager" icon ¹ to access file manager application.

• Tap on the widget to open and edit it.

For example, tap on the digital clock on the desktop. The clock settings will be brought up for users to set up timer, stop watch or alarm.

Clock		○ 19:06
X	19:06	
Ø	<u>ې</u>	:

Figure 10: Open Clock Widget

 Certain widgets such as Calendar, Clock and Bookmark can be resized on the desktop. To resize a widget, touch and press the widget for about 2 seconds. Then lift your finger from the screen. This will bring up the blue frame as shown in [*Figure 11: Resize Digital Clock Widget*]. Touch and drag the border of the frame to adjust the size.

Figure 11: Resize Digital Clock Widget

• Move the shortcut/widget

To move a shortcut/widget to a different spot on the desktop or to a different idle screen, touch and press the item for about 2 seconds until a recycle bin icon shows up on the bottom of the screen. Drag the item up/down/left/right to the destination spot on the screen. Lift your finger once done.

Figure 12: Move Clock Widget

• Remove the shortcut/widget

To remove an item from the desktop, touch and press the item for about 2 seconds. A recycle bin icon will show up on the bottom of the screen. Drag the item to the recycle bin to remove it.

Figure 13: Remove Clock Widget

⚠ _{Note:}

Removing operation only removes the shortcut of the application on the screen. The application itself will not be uninstalled.

SET WALLPAPERS

On the GXV3275 desktop, touch and press on an empty spot for about 3 seconds to bring up wallpaper settings. Or users could press menu button = and select "Wallpaper" to set up the wallpaper for the desktop. Users could select wallpaper from different categories:

• Gallery

Open Gallery application and tap on the picture to preview. Touch and drag the blue frame border to select the area of the picture. Then tap on "OK" to set the selected area of the picture as wallpaper.

• Live Wallpapers

Open a list of sample animated wallpapers built-in with the GXV3275. Select the live wallpaper to preview and then tap on "Set wallpaper".

• Wallpapers

Open a list of sample wallpapers built-in with the GXV3275. Select the picture to preview and then tap

on "Set wallpaper".

Figure 14 GXV3275 Choose Wallpaper

MANAGE RUNNING APPLICATIONS

On the GXV3275 desktop, press the Home button for about 2 seconds or select "Thread Manager" after pressing Menu button \blacksquare .

Users could use the thread manager to do the following:

- Slide the running thread to the left or right to stop the application.
- Tap on icon **U** to delete all running threads.
- Tap on "Application" softkey to access application menu for advanced management options.

IDLE SCREEN

SWITCH IDLE SCREENS

The GXV3275 supports multiple idle screens by sliding the screen horizontally. On the GXV3275 screen, slightly touch an empty area and slide to the left or right using your finger to switch between different idle screens.

Figure 16: GXV3275 Switch Idle Screens

SET UP IDLE SCREEN

• Set home screen

Follow the steps below to set up the HOME screen.

1. GXV3275 is up and running on idle screen.

- 2. Press the MENU button and tap on "**Preview**" option. This will zoom out all the screens as shown in *[Figure 17: Set up Home Idle Screen]*.
- 3. The screen with $\widehat{\mathbf{n}}$ displayed is the HOME screen. Others are shown with icon $\widehat{\mathbf{n}}$. Tap on the

icon 👘 to select the corresponding screen as the new HOME screen.

Figure 17: Set up Home Idle Screen

• Add/Delete idle screen

As shown in *[Figure 17: Set up Home Idle Screen]*, the screen with the blue frame highlighted is the current idle screen on the LCD. Users could add or delete idle screen.

Add idle screen.

Tap on $^{\oplus}$ to add a new idle screen. Users could add up to 9 idle screens.

> Delete idle screen.

Tap on 😢 on the top right of the idle screen to delete the idle screen. Please make sure the apps,

shortcuts or widgets on the idle screen are removed first. Otherwise, the \bigotimes icon won't show for the idle screen.

Figure 18: Delete Idle Screen

USE THE STATUS BAR

The status bar on the top of the GXV3275 screen provides visual notifications for the system settings and status, as well as quick access for important system settings. To access it, on the GXV3275 idle screen, slowly slide down from the top to the bottom of the screen as the following figure shows.

Figure 19: GXV3275 Top Status Bar

The running process will show up in the list. For example, the following figures indicates the Google Play app is being downloaded at the moment.

SYSTEM SETTINGS IN STATUS BAR

Slide down the top status bar and select **System Settings**. Users will see the following settings.

Figure 21: System Settings in Status Bar

∕ ∧ Note:

Handset Mode is for audio path and GXV3275 dialer control when running 3rd party app that uses media path. Currently there are three options supported:

- **Enabled:** Default mode. When handset is lifted, audio will come through handset and the GXV3275 default dial screen will show.
- **Disabled:** In this mode, when running the 3rd party app, if handset is lifted, the audio path will switch to handset but GXV3275 default dial screen won't show (users won't hear dial tone either). Onhook the handset, the audio path will be switched to speaker. Under this mode, even the GXV3275 is not using the 3rd party app, picking up the handset will not activate the GXV3275 dialer. (Users can still use Speaker button to activate GXV3275 dialer under this mode.)
- Auto: In this mode, the GXV3275 will automatically detect if the audio path is used by 3rd party app first. If so, it will use the handset mode "Disabled". Otherwise, keep it in "Enabled" mode. Please note that running the 3rd party app doesn't necessarily mean the audio path is used by the 3rd party app. If the audio path is not occupied by the 3rd party app, the GXV3275 will still use the handset mode "Enabled".

USE THE GXV3275 KEYS

Figure 22: GXV3275 Keys

Table 7: GXV3275 Keys

Volume Down	Tap to turn down the call volume and media volume.
Volume Up	Tap to turn up the call volume and media volume.
Home	Tap to go back to Home screen; or touch and press for about 2 seconds, the current running applications and Applications softkey will show to manage the applications.
Menu	Tap to view options for different screens or applications.
Back	Tap to go back to the previous menu.

KEYPAD SHORTCUT FUNCTIONS

The GXV3275 supports keys shortcuts for certain special system functions.

Screenshot

Press the Menu button for about 3 seconds to capture screenshot. The screenshot can be accessed via **FileManager**->**Internal Storage**->**Pictures**->**Screenshots**. The screenshot picture size is 1024x600 pixels.

• Firmware upgrade via SD card

- 1. Insert the SD card to the GXV3275. The SD card should have the valid firmware bin file in it.
- 2. Power cycle the phone and the 5 LCD keys on the bottom of the screen will light up.
- 3. Wait for the LCD keys light to turn off.
- 4. Once the light is off, immediately press and hold both keys **1** (the first LCD key from the left)

and $\mathbf{\hat{\omega}}$ (the third LCD key from the left) at the same time.

- 5. Release the keys when the LCD screen displays the upgrading bar.
- 6. The phone will start the upgrading process.

USE THE ONSCREEN KEYBOARD

The GXV3275 onscreen keyboard can be activated by tapping on an input field.

• English Keyboard

This is the default keyboard on GXV3275. Tap on *to access input options to switch input methods.*

q	w	е	r	t	у	u	i	Ο	р	×
a	s	d	f	g	h	j	k			Q,

Figure 26: English Keyboard - More Symbols

- To configure keyboard and input options, users could go to Settings->Language & Keyboard-> Keyboard & Input Methods.
- Users could touch and press the key on the keyboard for about 2 seconds to input the alternate character. For example, touch and press the "+" key for about 2 seconds can get the selection "±".

USE THE MESSAGE WAITING INDICATOR

The GXV3275 message waiting indicator LED is on the upper right corner of the device. It could notify the users with different messages and status of the phone. Please refer to the status description below. **The priority for the LED indicator is from high to low in the following table**.

Color	LED Status	Description
	Fast Flashing	Incoming call
	Solid	Calling, Talking, Conferencing, Screensaver on when the LCD is off
	Slow Flashing	A call is on hold
	Flashing	Missed call (s), New voicemail (s), New SIP Message (s)
	Solid	High memory usage, Maximum contact storage
	Fast Flashing	Upgrading
OFF	OFF	Normal

MAKE PHONE CALLS

REGISTER SIP ACCOUNTS

The GXV3275 supports up to 6 independent SIP accounts, including a pre-configured IPVideoTalk account registered on account 6. Users can make video calls and send messages to other IPVideoTalk accounts registered on another GXV32xx/GXV31xx. Each account can have separate SIP servers, usernames and NAT configurations.

ACCOUNT STATUS

On the idle screen, the account widget shows account name, number and registration status.

- The following figure shows the accounts are successfully registered (account icon is green).
- If the account icon is grey, it's still trying to register or unable to register.
- If the users have enabled Shared Call Appearance on the registered account, the account icon will be

• Microsoft Lync account and Bluetooth handsfree profile account will be displayed here too (if any).

Figure 27: GXV3275 Account Widget

CONFIGURE SIP ACCOUNT

To register SIP account, users could directly configure from phone's LCD menu->Settings->Advanced Settings->Account. Or users could log in the GXV3275 web GUI->Account page to fill in the necessary registration information, i.e., Account active, Account name, SIP Server, SIP User ID, SIP Auth ID, SIP Auth Password and etc. Once the correct information is entered and saved, the account registration status will show on the main screen.

▲ Note:

For web GUI login and configuration information, please refer to GXV3275 Administration Guide.

Once the account is successfully registered, users could use one of the following ways to bring up dial screen to start making calls.

- Take the handset off hook.
- Select an account from the account widget in the idle screen.
- On the bottom of the idle screen, tap on 🔪 icon to open dial screen.
- Tap on to open "Phone" application which will bring up dial screen.

Enter Number					📞 🗘 19:19

Figure 28: GXV3275 Dial Screen

DIAL A NUMBER DIRECTLY

- 1. Use the methods mentioned above to open dial screen [Figure 28: GXV3275 Dial Screen].
- 2. Select the account to dial out on the left panel of the dial screen. The selected account will be highlighted in grey background.
- 3. Enter the digits to be dialed out using the keypad. If the digit matches call history, a list of numbers will be displayed for users to select.
- 4. Tap on (audio call only) or (video call) to send the number. If no key is pressed, by default the call will be automatically dialed out after 4 seconds timeout.

A Note:

- By default, the "No Key Entry Timeout" is 4 seconds, meaning if no key is pressed after starting entering number, the call will be automatically sent out after the timeout. The timeout interval can be configured under web GUI->Account->Call Settings.
- GXV3275 allows users to press # key as SEND key. This behavior can be disabled via option "Use # as Dial Key" under web GUI->Account->Call Settings.
- When the user enters the digit on the dial screen, if there is digit matching call history, or contacts name/number, the drop-down list will show the numbers. For example, if "John" is saved in the contacts, entering 5 (JKL) 6 (MNO) 4 (GHI) 6 (MNO) will show call log with 5646 as the first four digits, as well as John's number. Users could then directly select one of them from the list, instead of entering all the digits.

REDIAL

Users can dial out the last dialed number if there is dialed call log, using the same SIP account making the call last time.

- 1. Enter the dial screen.
- 2. A list of dialed call will be displayed on the left side of the dial pad. Tap on the number you would like to call to redial.

DIAL A NUMBER VIA CONTACT

Follow the steps below to dial a number via Contact.

- 1. Access Contacts by tapping on kicon on the bottom of the idle screen, or selecting rom phone's menu.
- 2. Navigate in the contacts entries by sliding up/down on the screen.
- 3. Tap on the dial icon for the contact 💟.

Contacts		O 19:29
👤 ★	<u> 2</u>

Mark	3245	S (=)

DIAL A NUMBER VIA CALL HISTORY

- 1. Access Call History by tapping on ^{SS} icon on the bottom of the idle screen, or selecting ^{SS} from the phone Menu.
- 2. The LCD will display all call history types: "All", "Missed", "Outgoing" and "Incoming" calls.
- 3. Navigate in the call history list by selecting the call history category and sliding up/down on the screen.
- 4. Tap on the entry to dial out.

Figure 30 GXV3275 Call History

DIRECT IP CALL

Direct IP Call allows two phones to talk to each other in an ad-hoc fashion without a SIP proxy. VoIP calls can be made between two phones if:

- Both phones have public IP addresses; Or
- Both phones are on the same LAN/VPN using private or public IP addresses; Or
- Both phones can be connected through a router using public or private IP addresses (with necessary port forwarding or DMZ).

To make a direct IP call, please follow the steps below:

- 1. Off hook the phone or select account in the idle screen to bring up dial screen on GXV3275;
- 2. Under "Mode" button in the call screen, tap on it and select the mode as "IP Call";
- 3. Input the target IP address. For example, if the target IP address is 192.168.1.60 and the port is 5062 (i.e., 192.168.1.60:5062), input the following:

192*168*1*60#5062

The * key represents the dot (.) and the # key represents the colon (:).

4. Tap on (audio call only) or (video call) to dial out.

Enter Number					% 🗘 19:34
No Call	IP Call				\$
(3) Xu Lu 3165	192.168.124 192.168.124	192.1	68.124	.123:5	062

Lync 2013 jose.ramirez@		4 GHI	5 JKL	6 MNO	<u>.</u>
		7 PQRS	8 TUV	9 WXYZ	Audio Call
		*	0	#	O Video Call

Figure 31 Direct IP Call

⚠ _{Note:}

- The # will represent colon ":" in direct IP call rather than SEND key as in normal phone call;
- Port number is not mandatory when making direct IP call;
- Users need activate the first account on the GXV3275 to complete direct IP call;
- If you have a SIP server configured, direct IP call still works. If the devices are behind NAT, users might need configure NAT Traversal before using direct IP call. If you are using STUN, direct IP call will also use STUN;
- The phone needs to configure option "User Random Port" to "No" to accept direct IP calls;
- In GXV3275 Contacts, if the phone number is IP address, direct IP call can be made by dialing this contact.

ANSWER A CALL

SINGLE INCOMING CALL

• When the phone is in idle and there is an incoming audio call, the phone will show the call screen as below. Tap on "Answer" softkey to answer the call via speaker, or pick up the handset the answer the call.

	Audio Answer	Video Answer	Reject

Figure 33: Single Incoming Call - Video

 If the phone set the "Preview" feature for the incoming call from Web UI, the phone will display one more key "Preview" when there is an incoming video call. End users will preview the remote end without answering the video call. After previewing, end user can tap "Answer" key to answer the video call or "Reject" key to reject it. This feature should be supported by the SIP server. Please contact service provider for more information.

Figure 34: Single Incoming Call – Preview-1

Figure 35: Single Incoming Call – Preview-2

MULTIPLE CALLS/CALL WAITING

1. When there is another incoming call during active call, users will hear a call waiting tone, with the LCD displaying the caller name and ID for the incoming call. In the prompt window, it shows new incoming call from "Bill" with the caller number; the account bar in purple is the current active call with "Ricky".

Figure 36: Call Waiting

- 2. Similar to single incoming call, if the incoming call is video call, users can choose "Audio Answer" or "Video Answer" to answer the call.
- 3. Once the new call is answered, the current active call will be placed on hold. If the new call is rejected by tapping on "Reject" softkey, the current active call will not be interrupted.

CALL HOLD

During the active call, press HOLD softkey on the bottom of the screen to put the call on hold. The LCD screen will show as below. To resume the call, press UNHOLD softkey on the bottom of the screen.

CALL RECORDING

- 1. During the call, users could record the conversation to the phone by tapping on "More"->"Start Recording" on the call screen.
- 2. If need to stop the recording, tap on "More"->"Stop Recording" or hang up the call.
- 3. The recording files can be retrieved from the GXV3275 application "Recorder"->"Call" category.

MUTE

During an active call, press the MUTE softkey on the bottom of the screen to mute the call. The mute icon

 $\frac{2}{2}$ will be displayed in the status bar on the top of the screen. Press the UNMUTE softkey on the bottom of the screen to unmute the call.

Figure 39: GXV3275 Call Mute

TURN ON VIDEO DURING AUDIO CALL

Users could establish audio call first and then turn on video or accept video request during the call if the other party supports video call as well.

• Turn on video during audio call

During an active audio call, on the call screen, tap on "More" and select "Video On", a video request will be sent to the other party.

Figure 40: Turn on Video during Audio Call

• Accept video request

Figure 41: Accept Video during Audio Call

If the GXV3275 receives video request during the audio call, a message "Do you want to accept video?" will be prompted. Select "Yes" to establish video during the call.

SWITCH AUDIO CHANNEL DURING CALL

- The GXV3275 allows users to switch among handset, speaker or headset (RJ9 headset, 3.5mm earphone, Plantronics EHS headset and Bluetooth headset) when making calls.
- During a call, tap on the first softkey on the bottom to switch audio channel. Tap on icon

- If Bluetooth headset is connected, the audio will be automatically switched to Bluetooth headset once the call is established.
- The status bar on the top or the screen shows the current audio channel being used during the call. If pressing the corresponding key for the currently used audio channel, the call will be hang up.

CALL TRANSFER

A call can be transferred to another party during the call. The GXV3275 supports blind transfer and attended transfer.

BLIND TRANSFER

- 1. During the active call, tap on "More" softkey.
- 2. Select "Transfer" to bring up the transfer screen.
- 3. Select transfer mode as "Blind" by tapping on the highlight area in *[Figure 44: Blind Transfer]*. The default transfer mode is "Blind".
- 4. Enter the digits.
- 5. Tap on "Send" softkey.
- 6. The call will be transferred and GXV3275 will hang up the call.

Figure 44: Blind Transfer

⚠ _{Note:}

- If wrong digits are entered, tap on *to* delete the digit one by one;
- If users would like to cancel the transfer, press D button to go back to the previous talking screen.

AUTO-ATTENDED TRANSFER

The GXV3275 support auto attended transfer which provides users a fast and easy way to complete attended transfer.

- 1. During the active call, tap on "More" softkey.
- 2. Select "Transfer" to bring up transfer screen.
- 3. Select transfer mode as "Attended" by tapping on the mode selection area as highlighted in *[Figure 45: Auto Attended Transfer]*.

6. If the call is answered, users could then simply hang up or press the "Transfer" soft key to complete the transfer. Also, before hanging up, users can tap on "Split" in the following screen to separate the calls, talking to the second established call while placing the first call on hold.

Figure 47: Auto Attended Transfer - Split

ATTENDED TRANSFER

Besides auto-attended transfer, users could also consult the third party first before transferring the call.

- 1. During the active call, tap on "+ Add Call" on the left side of the screen to make the second call. This will place the current call on hold.
- 2. The second call establishes after the call is answered.
- 3. During the active call, tap on "More" softkey.
- 4. Select "Transfer" to bring up transfer screen. The first call on hold will be displayed

- 5. Tap on the call on hold **Bob** to transfer the call.
- 6. The call will be transferred and GXV3275 will hang up the call.

▲ Note:

- To transfer calls across SIP domains, SIP service providers must support transfer across SIP domains;
- If users would like to cancel the transfer, press 🕤 button to go back to the previous talking screen.

6-WAY CONFERENCE

The GXV3275 supports up to 6-way audio conferencing.

INITIATE CONFERENCE

- 1. When the phone is on call screen, tap on "More" softkey.
- 2. Select "Conf" to bring up conference screen;
- 3. Tap on to start adding party in conference;

Figure 49: GXV3275 Conference Screen

4. Enter the number of the party and tap on "Invite" to add it to the conference.

♀ Conference 2 conf lines →	*	ob onnected!		0:19	+	
		Clair Connected!	E			
						End

Figure 53: GXV3275 Conference - Remove Party from Conference

END CONFERENCE

To end the conference, tap on End to disconnect all the parties from the conference. GXV3275 will hang up the call. If the remote party hangs up the call itself, it will be disconnected from the conference but other parties on GXV3275 will stay in the existed conference.

HOLD AND RESUME CONFERENCE

During the conference, users could tap on the "Hold"/"Unhold" softkey to hold or resume the conference at any time.

AUTO CONFERENCE MODE

The GXV3275 also supports "Auto Conference" which allows users to establish conference call in a quick and easy way, instead of adding the other parties one by one. To enable Auto Conference feature, go to web GUI->Advanced Settings->Call Features and set "Auto Conference" to "Yes".

To esablish call with auto conference when there are 1 or more calls on the GXV3275, simply tap on "More" softkey and select "Conf". All the calls on GXV3275 will be brought into the conference.

⚠ _{Note:}

During the conference, if the initiator of the conference hangs up, the conference will end. If users wish to allow the remaining parties to stay in conversation after the initiator hangs up, the conference initiator should set "Transfer on 3-way Conference Hang up" to "Yes" in web GUI->Account page->Call Settings. This would allow the remaining parties to stay in the conference after the initiator exists the conference.

MISSED CALL

When there is a missed call, the LCD will show missed call dialog on the idle screen.

				Ł	

Figure 54: Missed Call Screen

Users can tap on the missed call entry to access the missed call log. To close the missed call screen and return to the idle screen, tap on 🛞 on the upper right of the dialog.

DND (DO NOT DISTURB)

When DND is on, the incoming calls to the GXV3275 will be blocked for all registered accounts with a reminder ring produced.

To turn on/off DND:

- 1. Touch and drag the status bar down on the GXV3275 idle screen. Then tap on "System Settings".
- 2. Tap on the DND icon to turn it on. The status bar shows icon indicating DND is on.
- 3. Tap on the DND icon **C** to turn if off.

Figure 55: Enable/Disable DND

⚠ _{Note:}

- When the phone is in an active call, turning on/off DND won't affect the current active call. It will take effect starting from the next incoming call.
- When the DND is on, all the incoming call logs will be saved in Blacklist. They won't be saved in Call History.

VOICEMAIL/MESSAGE WAITING INDICATION

When there is a new voicemail, the Message Waiting Indication (MWI) LED icon will blink in red on the upper right corner of the GXV3275 and 🖾 will show up in the status bar.

To retrieve the voicemail:

- 1. Tap on the Message icon **Constant** on the bottom of the idle screen to bring up voicemail screen. All the registered accounts and the number of voicemails are displayed there.
- 2. Tap on the account to dial into the voicemail box. Then follow the Interactive Voice Response (IVR) for the message retrieval process.

Voice Mail				r∎ ‡® 🗘	12:45
	Alice(1/1) 1001	æ	IPVideoTalk(0 /0) 8166617		

Figure 56: Retrieve Voicemail

For each account, the Voicemail User ID can be set up under web GUI->Account X->General Settings: "Voice Mail UserID". This is the number that will be dialed out to access voicemail message when tapping on the account in Voice Mail screen.

CALL FORWARD

Call forward feature can be set up from GXV3275 LCD or web GUI.

• From LCD

Go to onscreen Menu->Settings->Personalized Account->Select account name and tap on Call Forwarding to activate the feature. Then a list of options will show. Select the option to configure the call forward type (None, Unconditional, Time Based, Others) and then enter necessary number in the fields.

• From Web GUI

Log in GXV3275 web GUI and go to **Account** page->**Call Settings**. By default, Call Forward feature is set to "None". The Call Forward feature options are:

Unconditional Forward: All the incoming calls will be forwarded to the number set up in "All To" field.

Call Forward Type :	Unconditional
All To :	23455432

Figure 57: Call Forward - Unconditional

Time Based Forward: All the incoming calls will be forwarded to the number as schedule in the time period. During the setup time, the call will be forwarded to the number in "In Time Forward To:" field. Other period the call will be forwarded to the number in "Out Time Forward To:" field.

Call Forward Type :	Time Based
Time Period :	9:00 ~ 17:00
In Time Forward To :	1234567
Out Time Forward To :	1122331

Figure 58: Call Forward - Time Based

Call Forward on Busy / Call Forward No Answer: The incoming call will be forwarded when the GXV3275 is busy or no answer after certain interval "Delayed Call Forward Wait Time (s)".

Call Forward Type :	Others	
Busy To :	1123456	
No Answer To :	3333452	
No Answer Timeout (s) :	20	

Figure 59: Call Forward - Busy/No Answer

MULTI-PURPOSE KEYS

The GXV3275 supports multi-purpose keys (MPK) by downloading MPK app from GS Market. After downloading the MPK app, users could configure the MPK from MPK settings via LCD Menu->MPK app

, or via web GUI->Advanced Settings->MPK LCD Settings.

To configure MPK via MPK app on the GXV3275:

- 1. Download MPK app from GS Market and install it to the GXV3275.
- 2. Open the MPK app. Tap on so on the upper right of the app and then tap on to start adding MPK numbers.

SHARED CALL APPEARANCE (SCA)

The GXV3275 supports shared call appearance by the Broadsoft standard. This feature allows members of the SCA group to shared SIP lines and provides status monitoring (idle, active, progressing, hold) of the shared line. When there is an incoming call designated for the SCA group, all of the members of the group will be notified of an incoming call and will be able to answer the call from the phone with the SCA extension registered.

All the users that belong to the same SCA group will be notified by visual indicator when a user seizes the line and places an outgoing call, and all the users of this group will not be able to seize the line until the line goes back to an idle state or when the call is placed on hold (with the exception of when multiple call appearances are enabled on the server side).

In the middle of the conversation, there are two types of hold: Public Hold and Private Hold. When a member of the group places the call on public hold, the other users of the SCA group will be notified of this by the yellow-flashing button and they will be able to resume the call from their phone by pressing the line button. However, if this call is placed on private-hold, no other member of the SCA group will be able to resume that call.

To enable shared call appearance, the user would need to register the shared line account on the phone. In addition, they would need to enable SCA and configure SCA options via LCD or web GUI.

To configure SCA via LCD, go to **Settings**->**Personalized Account** and select one account first. The tap on "Shared Call Appearance (SCA)" to turn it on.

Shared Call Appearance(SCA)	⊾ 🎟 🕫 🗘 14:39

*67	 Block Caller ID (per call) Dial *67 followed by the phone number.
*82	 Send Caller ID (per call) Dial *82 followed by the phone number.
*70	 Disable Call Waiting (per Call) Dial *70 followed by the phone number.
*71	 Enable Call Waiting (per Call) Dial *71 followed by the phone number.
*72	 Unconditional Call Forward. To set up unconditional call forward: Dial *72 followed by the phone number to forward the call.
*73	 Cancel Unconditional Call Forward. To cancel the unconditional call forward: Dial *73.
*74	 Paging Call Dial *74 followed by the phone number to send the paging call.

*83	 Force Audio Calling (per call) Dial *83 followed by the phone number to send the audio call.
*84	 Force Video Calling (per call) Dial *84 followed by the phone number to send the video call.
*90	 Busy Call Forward. To set up busy call forward: Dial *90 followed by the phone number to forward the call.
*91	 Cancel Busy Call Forward. To cancel the busy call forward: Dial *91.
*92	 Delayed Call Forward. To set up delayed call forward: Dial *92 followed by the number to forward the call. The default timeout before the call is forwarded is 20 seconds.
*93	 Cancel Delayed Call Forward. To cancel the delayed call forward: Dial *93.

CONTACTS

The GXV3275 supports local, LDAP and BroadWorks Xsi Contacts. There are two ways to access GXV3275 contacts:

• On the phone's idle screen or menu, open Contacts app by tapping on icon

On the phone's idle screen or menu screen, tap on icon 🔽 on the bottom of the screen.

The following figure shows Contacts on the GXV3275.

Contacts	8	*	ି	20:26
Contacts				
Local Contacts				
LDAP Contacts				
BS Contacts				

Figure 65: GXV3275 Contacts

Tap the icon to access the Contacts. The BS Contacts is the BroadWorks Xsi Contacts. It needs to be configured with the remote BroadWorks server to enable this feature.

LOCAL CONTACTS

The local contacts can save up to 1000 entries. Users can manage contacts by adding, deleting and modifying single contacts, downloading contacts from HTTP/TFTP server, importing contacts from external storage and exporting contacts to external storage.

IMPORT/EXPORT CONTACTS

If the users have the GXV3275 phonebook file saved in local storage or external storage device that has been plugged into the GXV3275, the phonebook file can be directly imported to the Contacts. There are three different formats supported for the phonebook file: "csv", "vcard", and "xml". Users could manually create contacts first and export the phonebook file in csv, vcard or xml format to take a look on the phonebook file.

To import contacts:

- 1. Open Contacts.
- 2. Tap on **E** on the upper right of the Contacts screen.
- 3. Select "Import" to bring up "Import Contacts" dialog.

Import Contacts	👞 🎫 🖡 💿 🔢 🖇 🗘 14:29

Choose Directory	/mnt/usb1/3275

Figure 69: GXV3275 Contacts - Export Contacts

- 4. Select the file encoding and file type for the exported phonebook file. By default, the GXV3275 is using "UTF-8" as the encoding method.
- 5. Tap on "Choose Directory" and select the directory where the phonebook file will be exported to.

DOWNLOAD CONTACTS

The GXV3275 supports downloading XML phonebook from a remote HTTP/TFTP server to local Contacts. When downloading the phonebook, the GXV3275 sends request to the HTTP/TFTP server looking for file **phonebook.xml**. For more details about GXV3275 phonebook, please refer to the following link:

http://www.grandstream.com/products/gxv_series/gxv3275/documents/gxv3275_xml_phonebook_guide.p df

To download phonebook:

- 1. Make sure the GXV3275 can connect to the HTTP/TFTP server and the phonebook.xml file in correct format is downloadable from the HTTP/TFTP server.
- 2. Open Contacts.
- 3. Tap on 📃 on the upper right of the Contacts screen.
- 4. Select "Download" to bring up the "Download Contacts" dialog.

Download Contacts		🎟 🗔 🕫 🗈 🖇 🗘 15:18

EDIT CONTACTS

- 1. Select the contact as described in [SELECT CONTACTS].
- 2. Tap on to edit the contacts.

SEND CONTACTS TO DESKTOP SHORTCUT

- 1. Select the contact as described in [SELECT CONTACTS].
- 2. Tap on and select "Send to desktop". A shortcut for this contact will be created on the idle screen

for the users to access.

SHARE CONTACTS VIA BLUETOOTH

- 1. Select the contact as described in [SELECT CONTACTS].
- 2. Tap on and select "Send". Users will be able to send this contact to the connected Bluetooth device with the GXV3275.

ADD CONTACTS TO BLACKLIST

- 1. Select the contact as described in [SELECT CONTACTS].
- 2. Tap on and select "Add to Blacklist".

ADD GROUP

Open Contacts and tap on to access group. To add a new group, tap on and select the existing contacts to the group.

ADD ACCOUNT TO SYNC UP CONTACTS

On the GXV3275, users could add 3rd party application account (e.g., Gmail, Microsoft Lync, Skype, and etc.) so that the contacts there could be added to the GXV3275.

To add 3rd party application account:

1. Make sure the 3rd party application is installed successfully. For example, install Skype from GS market if you would like to add Skype account's contacts to the GXV3275.

- 2. Open contacts.
- 3. Tap on 📃 to bring up contacts options and select "Account".

Figure 77: GXV3275 Contacts Options- Account

- 4. An installation wizard will guide the user to set up the account to sync the contacts step by step. Tap on "Add account" if there is no logged-in account set up on the GXV3275 yet.
- 5. The following figures describe adding a Google account for sync-up purpose. Tap on "Google" to add a Google account.

LDAP PHONEBOOK

In addition to local contacts, the GXV3275 also supports LDAP phonebook if LDAP server is available within the network. Please refer to the following link for more details about how to use LDAP book on the GXV3275: <u>http://www.grandstream.com/products/gxv_series/gxv3275/documents/gxv3275_ldap_book_guide.pdf</u>

BOADRWORKS XSI CONTACTS

Besides the Local and LDAP phonebook, the GXV3275 also supports BroadWorks Xsi contacts if BroadWorks XSP server is available within the network. Please refer to the following link for more details about how to use BroadWorks Xsi Contacts on the GXV3275:

http://www.grandstream.com/products/gxv_series/general/documents/gxv32xx_broadworks_xsi_guide.pdf

BLACKLIST

The GXV3275 has blacklist support for users to manage incoming calls. To access blacklist, tap on icon

in the phone's menu.

BLOCK HISTORY

Open blacklist and tap on to view the block history. It shows the detailed information for the blocked calls: caller number, caller name and calling time.

RESTORE BLOCKED NUMBER

The blocked number in the block history can be restored to call history and the number will be removed from blacklist. To do this:

- 1. In the block history, touch and press the entry for about 2 seconds until checkbox displays.
- 2. Tap on the checkbox for the entries to be selected. *indicates the entry is selected.*
- 3. Tap on **and select** "Restore to Call History".

Block History			⊾ 📼 🗘 14:52

Figure 81: Restore Blocked Number

4. A dialog will pop up for users to confirm. Tap on OK to restore this number to call history and the number will be removed from blacklist.

DELETE BLOCK HISTORY

- 1. In the block history, touch and press the entry for about 2 seconds until checkbox displays.
- 2. Tap on the checkbox for the entries to be selected. **1** indicates the entry is selected.
- 3. Tap on to delete the selected entries.

Users could also tap on uirectly to clear all block history logs.

EDIT BLACKLIST

Tap on Land users will see all the blacklist numbers.

ADD BLACKLIST

1. Tap on to start adding new entry to the blacklist. The blacklist can be added manually, add from contacts, or added from call history.

Figure 82: GXV3275 Blacklist - Add Blacklist

2. The following figure shows manually adding number to blacklist. Once **Manually add** option is selected, a window will be prompted for users to enter the phone number in the first field and name/other note information in the second field (optional). Tap on **Save** to finish the adding operation.

CALL HISTORY

The GXV3275 supports local and BroadWorks Xsi Call history. There are two ways to access GXV3275 contacts:

- Tap on phone's menu or idle screen if call history shortcut is created on the desktop.
 - Or
- Tap on the bottom of the idle screen or menu screen.

The following figure shows the call history on the GXV3275.

Call History	FTP	ę	*	ି	17:14
Call History					
Local CallHistory					
BS Calllog					

Figure 86: GXV3275 Call History

LOCAL CALL HISTORY

Tap the Cocal CallHistory icon to enter the local call history.

There are four different categories in the local call history. Users could tap on the icon on the top menu to access the corresponding call logs:

Missed calls

DIAL OUT FROM CALL HISTORY

Tap on one of the call history entry to call this number directly. The phone will use the same account as the call log when dialing out.

CALL HISTORY OPTIONS

- Touch and press the call history entry for about 2 seconds until the checkbox displays.
- Then tap on to bring up the options. Users can edit this number before calling, add this number to contacts, add this number to balcklist and send text message to this number.

Figure 87: GXV3275 Call History - Options

DELETE CALL HISTORY

- Touch and press the call history entry for about 2 seconds until the checkbox displays.
- Tap on the checkbox to select the call history entries. The icon turned to indicates the entry is selected.
- Tap on to delete the entries.

CALL HISTORY DETAILS

For each call history entry, users could tap on \triangleright on the right side of the entry to access the details.

Details			⊾ 🚥 罕 💨 🕸 🗘 12:49

₽ \	12:35	Duration 00:00	•
₽ ℃	12:33	Duration 00:02	•

Figure 88: GXV3275 Call History - Details

The following operations could be done:

- Dial out this number directly.
 - Bring up dial screen with the call history number. Users could edit the number before dialing out.

Delete the entry.

Options "Clear all", "Add to Contacts", "Add to Blacklist", or "Send Text Message" for the number in this entry.

BROADWORKS XSI CALL HISTORY

Besides the Local Call History, the GXV3275 also supports BroadWorks Xsi call history if BroadWorks XSP server is available within the network. Please refer to the following link for more details about how to use BroadWorks Xsi Call History on the GXV3275:

http://www.grandstream.com/products/gxv_series/general/documents/gxv32xx_broadworks_xsi_guide.pdf

SMS

The GXV3275 has built-in SMS application to send/receive message, if the SIP server supports SMS message.

Users can create, edit draft, delete and check the storage status of SMS. The SMS app supports up to 1000

messages. Tap on the phone's menu or desktop to launch SMS application.

CREATE NEW SMS

Tap on in SMS application to start composing a new message.

- Select account to send the message from.
 Select the account to send the SMS message in the drop down box on the right side of the top menu.
- 2. Add number to send the message to.

Enter the number of the contact to send the message too on the left side of the top menu. Users could

also select contact from GXV3275 Contacts by tapping on Select the account to send the SMS message in the drop down box on the right side of the top menu.

3. Input content

Enter the message content on the bottom field of the screen. Tap on "Done" once finished.

4. Send message

Tap on the arrow icon keep when you are ready to send the message out.

DELETE SMS

- 1. Touch and press one SMS message for about 2 seconds until the checkbox shows.
- 2. Select the checkbox for the messages to be deleted. Users could also tap on select/unselect all message.
- 3. Tap on to delete the selected messages.

CONNECT TO NETWORK AND DEVICES

The GXV3275 supports a variety of network connections (Ethernet, Wi-Fi) and device connections, including EHS headset (Plantronics), USB, SD card and Bluetooth device. Users can connect the GXV3275 to transfer files from/to the GXV3275 using a USB connection, SD card or Bluetooth.

ETHERNET

Ethernet connection is turned on as DHCP by default. If you would like to use Ethernet connection for network access, please make sure the Ethernet cable is plugged in to the LAN port on the back of the GXV3275.

To configure Ethernet settings on GXV3275 LCD:

- 1. Go to GXV3275's Settings application->Wireless & Network->Ethernet Settings.
- 2. Touch IPv4 settings.
- 3. Tap on "Address Type" to select DHCP, Static IP or PPPoE as the address type.
 - For DHCP, save the setting and the GXV3275 should be able to get IP address from the DHCP server in the network.
 - For static IP, enter IP Address, Subnet Mask, Default Gateway, DNS Server and Alternative DNS server for the GXV3275 to correctly connect to network.
 - For PPPoE, enter PPPoE account ID and password so the GXV3275 can get IP address from the PPPoE server.

WI-FI

WI-FI is supported and built-in on the GXV3275. GXV3275 can be connected to network if Wi-Fi is available within the area.

TURN ON/OFF WI-FI

- 1. Go to GXV3275's Settings.
- 2. Touch **Wireless & Network**.
- 3. Check or uncheck the option for Wi-Fi.

Or, users could open the top status bar->System Settings and tap on WI-FI icon 🝸 to turn it on/off.

ADD WI-FI NETWORKS

- 1. Once Wi-Fi is turned on, GXV3275 will automatically start the scanning within the range.
- 2. Go to GXV3275's **Settings**.
- 3. Touch Wireless & Network.
- 4. Touch Wi-Fi Settings.
- 5. A list of Wi-Fi networks will be displayed as scanning result. Tap on the SSID and enter the correct password information to connect to the selected Wi-Fi network.
- 6. The phone will start connecting to the Wi-Fi. The status bar will show Wi-Fi signal strength.
- 7. Once it's added and the password is remembered, the GXV3275 will connect to it again when the SSID is within the range.

		Cancel	Connect		

Figure 147: GXV3275 Connect to Wi-Fi

BLUETOOTH

Bluetooth is a proprietary, open wireless technology standard for exchanging data over short distances from fixed and mobile devices, creating personal area networks with high levels of security. The GXV3275 supports Bluetooth Class 2, version 4.0 + EDR. Users could use Bluetooth to transfer files, share contact information with other Bluetooth portable devices, use Bluetooth headset for making calls, switch calls to the GXV3275 from mobile devices using Bluetooth hands-free profile, and listen to media (music or other audio output) from the GXV3275.

To connect to a Bluetooth device, turn on GXV3275's Bluetooth radio first. The first time when using a new

Bluetooth device with the GXV3275, "pair" the device with GXV3275 so that both devices know how to connect securely to each other. After that, users could simply connect to a paired device. Turn off Bluetooth if it's not used.

Bluetooth related settings are under GXV3275's Settings-> Wireless & Network.

TURN ON/OFF BLUETOOTH

- 1. Go to GXV3275's Settings.
- 2. Touch Wireless & Network.
- 3. Check or uncheck the option for **Bluetooth**.

Or, users could open the top status bar->System Settings and tap on Bluetooth icon

to turn it on/off.

CHANGE BLUETOOTH DEVICE NAME

The GXV3275 uses "GXV3275" as Bluetooth device name by default. The device name will be visible to other devices when connecting them. Follow the steps below to change the name:

- 1. Go to GXV3275's **Settings**.
- 2. Turn on **Bluetooth**.
- 3. Select Wireless & Network->Bluetooth settings.
- 4. Press Menu button = and tap on "Rename phone".
- 5. Enter a name and tap on "Done".

PAIR GXV3275 WITH A BLUETOOTH DEVICE

Before connecting GXV3275 with other Bluetooth device, users must pair them first. They will stay paired afterwards unless they are unpaired.

- 1. Go to GXV3275's Settings.
- 2. Select Wireless & Network and turn on Bluetooth.
- 3. Tap on **Bluetooth settings**.
- 4. Tap on the Bluetooth device to make it visible to all nearly Bluetooth devices.
- 5. The GXV3275 scans and displays the IDs of all available Bluetooth devices in range. If the device you would like to pair with does not show up in the list, ensure that the other device is turned on and set to be discoverable.
- 6. If the GXV3275 stops scanning before the other device is ready, press Menu button and select

"Search for devices".

7. Once the Bluetooth device shows up in the result, tap on it to start pairing. Confirm the passkey in the prompted message (if any). Or if passcode is required, please refer to the device's documentation or other procedures to obtain the passcode.

UNPAIR A BLUETOOTH DEVICE

- 1. In the Bluetooth settings, tap on the Bluetooth device.
- 2. Tap on **Unpair**.

For more information about Bluetooth feature on the GXV3275, please refer to the link below: <u>http://www.grandstream.com/products/gxv_series/gxv3275/documents/gxv3275_bluetooth_guide.pdf</u>

EHS HEADSET

The GXV3275 supports normal RJ9 headset and EHS headset (Plantronics and Jabra). To use Plantronics EHS headset:

1. Go to the GXV3275 web GUI->Maintenance->Device Manager: Headset Type. Select "Plantronics EHS" or "Jabra EHS" and reboot the phone to take effect.

2. Connect EHS Headset to the GXV3275. Insert headset connector into the RJ9 headset port on the back of GXV3275.

USB

The GXV3275 supports USB connection with USB storage devices. To connect and access USB storage device:

- 1. Insert USB storage device into USB port at the back of the GXV3275.
- 2. It will take a few seconds for the GXV3275 to prepare the connection. Then the USB storage icon vill show on the status bar.
- 3. To access USB storage, go to GXV3275 MENU->File Manager->USB Disk. Tap on it to access and manage your data.

FileManager		⊾ 🚥 🛱 🎧 🚏 🔅 🔅 17:05
